

## TEST TEST TEST! A Dust Advisory is in effect for St. Maarten

 **Urgency:** Expected

 **Severity:** Moderate

 **Certainty:** Likely

**Issued:**

Mon 20 Apr 2026  
19:27

**Effective:**

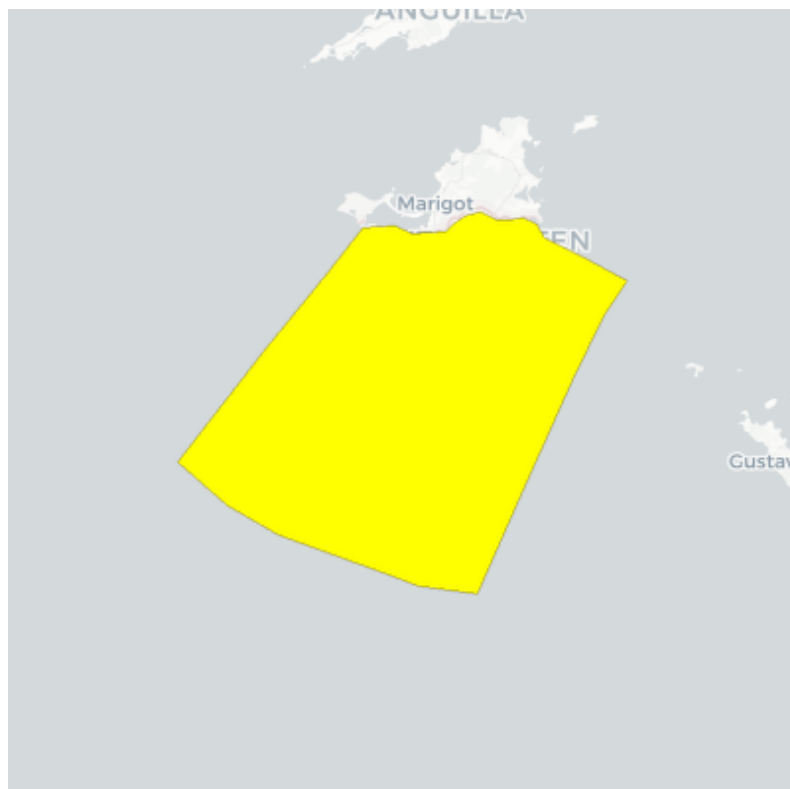

Mon 20 Apr 2026  
19:30

**Onset:**

Mon 20 Apr 2026  
22:00

**Expires:**

Tue 21 Apr 2026  
10:00

**Area:**

St Maarten and Territorial Waters

**Description:**

Test!: A dense plume of Saharan dust is likely to affect St. Maarten during the next few days. Reduced visibility and degraded air quality may impact health.

**Instruction:**

Limit prolonged outdoor exposure and take precautions if you have respiratory conditions. Monitor official weather updates from the Meteorological Department of St. Maarten at [www.meteosxm.com](http://www.meteosxm.com). Next update: 6:00 A.M tomorrow.
